

## **RESCHEDULING NOTICE**

**WOODBINE/CHUMUCKLA**

**CORRIDOR TRANSPORTATION STUDY**

# **Workshop 1**

**Santa-Rosa County** has rescheduled (due to the hurricane warning) the first of two Consensus-Building Workshops for the Woodbine/Chumuckla Corridor Transportation Study. This study will identify transportation improvements in the corridor needed by 2025.

Citizens are invited to assist the County in the development of improvement alternatives. A consensus-building workshop is a forum for a diverse group of citizens to discuss major transportation issues and challenges and, ultimately, to develop consensus on strategies to address these issues and challenges. This First Workshop will focus on the understanding of current travel patterns and the consideration of alternative travel routings.

**"RSVP early to assure yourself a spot in this key workshop effort"**

**Consensus-Building Transportation Workshop**  
**Thursday, September 29, 2005—5:30p.m. to 9:00p.m.**

**Pace High School—Freedom Hall**  
**4065 Norris Road, Pace, FL 32571**

### **Major Discussion Topics**

- **Land Use and Transportation Growth**
- **Travel Demands and Issues**
- **Alternative Improvements**

Please contact **Beverly Hutching at Santa Rosa County** to reserve your space in this Consensus-Building Workshop! Refreshments will be provided.
